

DUOMATIC TAPE PERFECT ELECTRONIC KEYS

Announcing..

An Important Advance In Electronic Key Design

The DUOMATIC AKS-7 Series C with silent, hermetically sealed relay mechanism.

- Performance unaffected by dust, temperature or humidity.
- Operation hushed as the tick of a fine watch.
- Fastest response time of any electronic key gives amazingly low distortion factor.
- Extra wide range of sending speeds.
- Freedom from contact troubles for life of relay.
- Relay assembly plug-in mounted for easy servicing.
- Full self-completing action.

The merit of the twin-relay self-completing action of W6OWP's electronic key circuit is recognized by CW operators everywhere. Here now is a new development . . . one that marks an end to relay clatter and mechanical noise . . . yet brings keyer performance to a new high.

DUOMATIC—the pioneer in commercial development of the self-completing circuit—takes pride in presenting the new Series C AKS-7 Electronic Key. The noise-free, sealed-unit construction is destined to become the standard of automatic key design.

Price: \$37.95, complete with tubes, ready to operate.

SPECIFICATIONS

Circuit: Basic W6OWP twin-relay. Uses two 50B5 miniature tubes. Selenium rectifier. For 110V AC/DC operation. Keying relay is isolated from pulse and shaping circuits and functions on square-wave current cycle assuring utmost stability. Mfgd. under U.S. Patent No. 2437497. Other patents pending.

Physical Data: DUOMATIC AKS-7 Series C is supplied in attractive gray and black crackle steel case. Dimensions: 4" wide, 4¾" high by 7" deep. Shipping weight 6 pounds.

Controls: Speed, bias (shaping) and test switch on recessed front panel. Dot-to-dash ratio adjustment reached from rear of unit.

Guarantee: ALL DUOMATIC instruments are covered by an unconditional guarantee against mechanical or electrical defects. Our best salesmen are the Duomatics in use . . . it is to **our** advantage as well as **yours** that each key render satisfactory service.

ORDERING INFORMATION

Terms are cash with order or C.O.D. upon receipt of \$10 deposit. Shipment is by Railway Express unless parcel post is specified. In latter case, postage and insurance to cover transportation to your postal zone should be included with remittance.

Delivery schedule is normally within 10 days of receipt of order.

California buyers include 3% sales tax.
