

Although the Early Bird Registration has ended, you can still register online for a few more days.

Please note that any tickets postmarked by **May 15** and received after **May 15**, will be held at Will-Call in the convention center lobby.

You can still save \$5 by registering online or by mail instead of standing in line at the door.

The two Friday workshops and all flea-market tables are *SOLD OUT*. Please note that if you have purchased workshop tickets, your registrations are being held at that venue for when you check in. The Antenna Modeling workshop has been moved to the **Seaside Elks Club, 324 Avenue A, Seaside, OR 97138**. The Emergency Communications and Preparedness Workshop will be held at the Convention Center in **Riverview A/B/C**. No other exhibits or the flea-market will be open on Friday. Please plan to attend the Seminars, flea market, commercial exhibits and other activities on Saturday and Sunday, June 2-3.

Many of the hotel and motels have already received reservations for this year's convention on June 1-3.

Attendees are encouraged to make reservations now. Check the lodging special rates at www.seapac.org on the Sponsor Lodging Page.

Visit www.seapac.org for additional details, to preregister and see even more information as it becomes available.

Please feel free to download and forward the **SEA-PAC** mailer from the website to your friends.

We are continuing to look for a few more additional volunteers for various positions. If you can help for just an hour or two that would be great. Plus, we'll enter you into a drawing for each hour you volunteer. Reply to volunteers@seapac.org and someone on the committee will get back to you.

Plan now to bring the family for a wonderful weekend at **SEA-PAC**, located in Seaside, Oregon near the beautiful Pacific Ocean beach.

The SEA-PAC Committee
